

People Wanna Know

Track 16

Verse 1

Yo, yo this is that New Age Education
Something different
Than them songs they be playing
On the radio
See this is the real deal
If nobody want to change the station then I will
Let me *broach* meaning introduce
Exactly what I do, I even brought a crew
Or you could even say it's a *bevy*
Which also means a group
Let me show you how to flow
With the words that I know
This is no *facade*, a front
Or a superficial appearance
Everything that you hearing is real
I hope you understand the *verity* or truthfulness
In the words in my vocabulary
Working on my vocab is making me stronger
The opposite of *debilitate*
Meaning making me weak
Hey, hey, it's K-Bach
And I'm giving you some words
You can practice on your own
While you groove to the song

Chorus

Everywhere we go people wanna know
This is MindMuzic so listen to the flow
We on that Westside
Rappin' education is the best, right?
(repeat)

Verse 2

Yo, I got a vision
I want to share with the world to inspire
This generation of boys and girls
Growing up wanting to learn
In a different way
Tired of the same thing
You could say it's *mundane*, boring
Ordinary, typical, or tedious
This is food for thought
So that's why I choose to feed them this, ha
See I choose to *interpolate*

Education in this hip hop
Which means to insert or change
By adding new words or material
Education is *pivotal*, so none of this is trivial
Or *frivolous*, petty or silly
Nod your heads if you're with me
And I hope you can *differentiate*
Between two things if you know what I mean
Cuz this is hip hop but it's also educating
I call it MindMuzic that New Age Education

Repeat Chorus

Verse 3

Now get ready
Cuz the focus of this song
Is to build on your vocab
So you could sing along
If you heard these words before
Then you know the definitions
So follow these lyrics really close, listen
The first word is *impasse*
Which means a dilemma with no solution
Or a blocked path, or you could *infiltrate*
Meaning secretly entering enemy territory
Then you could be the *protagonist* of the story
The main character or hero
It's easy like a free throw
To put these words together
Cuz this music is my *repose*
My relaxation or leisure
This is the *epitome*
Which really means the summary
Of what I really mean by New Age Education
With no time wasted
I just construed or explained
15 words in this song
Now store it in your brain

Repeat Chorus

Outro

Haha, yeah, uh, yeah
We on that Westside
Rappin' education is the best, right?
