

# Have You Heard?

Track 5

## Verse 1

I wanna help you out  
I want to *assist* you  
It might do you good  
Or also *benefit* you  
I don't want to make  
Things unclear  
I don't want to *confuse*  
What you might hear  
Let me show, explain, or *demonstrate*  
What I see  
We can make something simple, so *extraordinary*  
And if you focus we can hope this *concentration*  
Will find time to share, its *generosity*  
Because I'm *humble*  
I know I'm not perfect  
I'm not too proud to tell you  
That I know you're worth it  
You can make yourself  
Better and bigger  
Just *increase* your knowledge  
And show that you're a winner  
And if you *lack* this  
And feel that you're missing  
Something so amazing  
Something so outstanding  
Get yourself ready  
On your marks, let's go  
*Proceed* right along  
Prepare for the show

## Verse 2

Are you feeling sick  
Perhaps a bit *queasy*  
Are you nervous cuz you heard  
This wasn't easy  
Free up your mind  
Release and you'll find  
It becomes a regular *routine*  
Each and every time  
So *typical*  
It's normal and expected  
An *ordinary* situation  
Nothin' perfected  
But at the end of it all  
You will see  
That you have  
Many things to share with your *variety*

## Chorus

MindMuzic, MindMuzic  
Play it, have you heard?  
Building your vocab  
Remember every word  
If you listen super close you will hear  
Definitions  
Vocab for ya ear  
**(Repeat)**

## Verse 3

Take all your skills  
And see what you will be  
Capable of in this life that  
You can only lead  
It's important to *communicate*  
Make something known  
Share the ideas you have with a voice  
Of your own  
Then make them grow bigger, better, and stronger  
Develop ideas, until you can't any longer  
Then you have  
Something real you created  
You feel relaxed at ease  
And you would never trade it  
And in an instant not a minute  
But *immediately*  
You desire no worries  
To be *carefree*  
Will be *frequent*  
You'll see many times  
You'll know it's important  
And then recognize  
How you need it  
To stay alive  
It's the only real thing you need  
To *survive*  
These words  
That you heard  
We're building 'em up  
Cuz this is Mind Muzic vocab  
What's up

## Repeat Chorus
